

2018 ALBUQUERQUE BICYCLE MAP

DISCLAIMER
This map is provided as a guide for those who intend to bicycle in the Greater Albuquerque area. The City of Albuquerque provides the line work on this map as a compilation of data collected from CAGI, SERVICIO MROSC, NMOTD and Rio Rancho. The City of Albuquerque only maintains facilities owned and operated by the City and within the City's jurisdiction. The information depicted on this map is thought to be an accurate and a truthful representation of the compiled data and information as of April 2018; however, no guarantees are made to the accuracy and quality. The data was acquired through various resources within state and local governments. The City of Albuquerque assumes no liability for the use of this map and information.

WELCOME TO BICYCLING IN ALBUQUERQUE!

Bicycling is both an important element of the City's multi-modal transportation system and a very popular recreational activity. Our temperate climate and sunshine allow for year-round bicycling opportunities. Taking advantage of these opportunities can result in significant benefits to your health and physical fitness. Bicycle commuting is strongly encouraged as a means of reducing traffic congestion and improving the City's air quality.

Albuquerque bicycle programs strive to provide a safe riding environment for bicycle riders of all levels. There are over 550 miles of on-street bicycle facilities and multi-use trails in the City and what you see represented on this map is only the beginning. The City is committed to the continued expansion of the system to make bicycling accessible to everyone.

The City of Albuquerque invites you to explore the routes and destinations identified on this map. We sincerely hope you enjoy your bicycling experience in Albuquerque. Please bicycle responsibly, obey traffic laws, and share our multi-use trails.

For more information about Bicycling in the Albuquerque Metro Area go to the city's web site at www.cabq.gov/bike
