The Metropolitan Parks and Recreation Advisory Board was established to encourage the greatest use of parks and recreation programs including cooperation with other agencies and organizations which are involved in providing recreation services for the public good. The MPRAB is also charged with keeping itself informed of city parks and recreation needs and to serve as a forum for public discussion. The MPRAB represents the community at large and not any specific recreational organization. The MPRAB recommends to the Mayor and City Council policies for overall development of the park system.
