Albuquerque Bicycle Map

Welcome To Bicycling in Albuquerque!

Bicycling is both an important element of the city's multi-modal transportation system and a very popular recreation activity. Our temperate climate and sunshine allow for year-round bicycling opportunities. Taking advantage of these opportunities can result in significant benefits to your health and physical fitness. Bicycle commuting is strongly encouraged as a means of reducing traffic congestion and improving the city's air quality.

Albuquerque bicycle programs strive to provide a safe riding environment for bicycle riders of all levels. There are over 525 miles of on-street bicycle facilities and multi-use trails in the City, and what you see represented on this map is only the beginning. The City is committed to the continued expansion of the system to make bicycling accessible to everyone.

The City of Albuquerque invites you to explore the routes and destinations identified on this map. I sincerely hope you enjoy your bicycling experience in Albuquerque. Please bicycle responsibly, obey traffic laws and share our multi-use trails.
