Call to Order: Mr. Wilkinson called the meeting to order at 12:35 PM.

Approval of Today’s Agenda: Mr. Wilkinson amended the agenda to allow General Public Testimony so Sarah Eiland could speak about dog parks. As Mr. Nordin had other work related issues to attend to, he will speak after Ms. Eiland.

General Public Testimony:

- Sarah Eiland, a member of the newly formed Silver Platinum Neighborhood Association, attended the Board Meeting to speak about dog parks. She discussed how only one of our dog parks, Tingley Dog Park, is wheelchair accessible. She discussed incidents she has had at this Dog Park, where her dog has been attacked by aggressive dogs on several occasions. She also mentioned how she contacted 311 and no one came to assist her after waiting several hours. She mentioned how people take snacks and food into the Dog Park. She feels there should be a policy in place to deal with these issues. She would also like to see Tingley Dog Park designated a “special needs” dog park, for people that have disabilities. Board Members discussed this matter and inquired if designating the park as special needs would solve the issue of aggressive dogs. Christina provided an explanation of what accessibility is. She invited Ms. Eiland to contact her and discuss this issue further away from the Board Meeting. She explained how the Parks and Recreation Department does not enforce the Heart Ordinance. This Ordinance is enforced by Animal Welfare. Christina offered to contact Animal Welfare to request patrols at this park for a two week period. She addressed the inquiry from Ms. Eiland about the Facebook page, indicating that it is not associated with the City. Garry mentioned that enforcement of dog parks is a difficult challenge. Accessibility at dog parks is something we can look at. Christina provided information on how we are conducting audits of all of our facilities for ADA accessibility. Dan Wilkinson suggested installation of a video camera. Christina explained how the Department is
currently looking at purchasing one or two portable security cameras that can be placed at our facilities. They will be hooked up to the Real Time Crime Center.

- Bill Nordin, BFP Commission Representative for MPRAB, discussed how the Balloon Museum has recently held events where there were too many people in attendance. If this happens, more APD officers are required to assist with exiting the facility. He indicated that the Balloon Fiesta Park Commission is currently discussing what to do in this type of situation. The Commission is discussing another slide event at the Park. A presentation will be held on this at an upcoming Commission meeting. The Commission approved the fee schedule for the new Sid Cutter Pilots Pavilion. He discussed how the Golf and Event Center is booked on weekends. It is also a good place to have lunch meetings. The facility holds close to 300 people and rents for $250, which is very minimal. Mr. Nordin discussed the amenities that the facility has. He suggested that the Board hold a meeting at the new Sid Cutter Pilots Pavilion once construction is completed. This facility is 12,000 square feet and will hold approximately 800 people.

Approval of Minutes: Mr. Wilkinson inquired if there were any objections to the Minutes as written for April 2015. Jan Harrington made a motion to approve the minutes as written; the Board unanimously approved the minutes.

Introduction of Visitors and Guests: Mary Lou Kraemer and John Whitson attended as a potential Board Members.
