This division through its specialized units discussed below, has the primary responsibility of investigating and solving criminal cases. CID performs its functions through a careful and professional process that includes examining the crime scene; identifying and preserving physical evidence; interviewing the victim of the crime; identifying and questioning witnesses and developing leads; analyzing evidence; identifying and apprehending suspects; securing appropriate search and seizure warrants, criminal complaints and arrest warrants as may be necessary, and tendering the completed case to the appropriate prosecuting official. Thereafter, CID assists the prosecutor in the presentation of the case to either the grand jury or petit jury by providing relevant testimony.

In the event of life-threatening injuries as a result of a violent crime, Crime Scene Specialist (CSS) supervisors will notify radio control communications of the life-threatening injuries per the Crime Scene Specialists SOP. On-call rotations will be in one-week increments and scheduled by unit supervisors.

H. Sexual Assault Nurse Examiners (SANE)

These are specially trained nurses specializing in assisting victims of sexual offenses. They provide examinations, collect and preserve forensic evidence and clothing.

These federal agencies may include; FBI, DEA, ATF, USMS, and HSI. Detectives will be assigned based on the needs of the Department and such assignments are at the discretion of the CID Commander or designee.

A. Each TFO participant will follow the mission and guidelines provided by the host Federal Agency.
B. While working on any operation under the host Federal Agency, the TFO participant will follow all SOP and rules/regulations of that agency as well as those of the Department except to the extent that where the federal SOP conflicts with APD policy, the federal policy shall apply.

C. Whenever an APD TFO participant works in any capacity other than under the host Federal Agency, he/she will follow all APD SOP and rules/regulations.

D. Whenever an CID TFO participant is involved in a use of force incident during an operation under the host Federal Agency, the following procedures apply:

1. All use of force investigations and reporting will follow the federal host agency's policies and MOUs, as well as the provisions of this policy.

2. All uses of force will be reported to the TFO's immediate CID supervisor and the federal host agency’s chain of command when feasible and safe after the use of force either in person or by telephone.

3. A CID supervisor is responsible for documenting all uses of force using standard Department forms according to the Use of Force Reporting and Supervisory Force Investigation Requirements SOP. If the use of force meets the criteria for a serious use of force per this SOP, the CID supervisor will contact Emergency Communications to dispatch the Investigative Response Team (IRT) and Critical Incident Response Team (CIRT).

4. APD may conduct concurrent force investigation(s) on all uses of force based on Department policies and standards.
   a. All use of force incidents are to be documented by a CID Supervisor and entered into the EIS system.
   b. If a use of force incident occurs outside the jurisdiction of APD, a CID supervisor documents the incident based on the Federal Host Agency’s use of force report.

E. Chain of Command (TFO):

1. Each TFO participant follows his/her respective CID chain of command for all APD matters.

2. Each TFO participant is expected to follow the host federal agency’s chain of command for matters related to the TFO.
3. Day to day operations shall be directed by the host agency supervisor.

4. In the event of a conflict between parallel chains of command, the TFO federal supervisor will contact the CID supervisor either in person or by telephone. The CID supervisor has final authority to resolve the issue.

6. Only the Chief of Police or his/her designee may sign or terminate joint-operation agreements with the federal government.

5-3-7 Sex Crimes Unit

The Sex Crimes Unit (SCU) investigates all cases of Criminal Sexual Penetration (CSP) per State Statutes 30-9-11 including attempted CSP where the victim is 13 years of age or older.

A. The following sex crime cases are investigated by the Crimes Against Children Unit (CACU):

1. If the victim is under 18 years of age at the time of the report and the suspect is a parent, guardian, current or former household member; or

2. If the reporting victim is between 13 and 18 years old but was age 12 or under at the time of the offense, regardless of the relationship between the suspect and victim.

3. The CACU will assist with other sex crime cases when directed to do so by the Chief of Police.

B. Role of the Responding Officer

1. Provide an emergency response, including attending to medical needs;

2. Evaluate the scene for people, vehicles, or objects involved as well as possible threats;

3. Assist the victim by providing factual information and emotional support;
4. Put the victim at ease by explaining the investigative process;

5. Inquire about the identity and location of the perpetrator. Officers will search for the suspect and temporarily detain or arrest the suspect as appropriate based on evidence of probable cause;

6. Relay all relevant information to responding officers, supervisors, and detectives;

7. Contact family support, if feasible;

8. Preserve evidence, secure the scene and evaluate the scene for people, vehicles, or objects;

9. Communicate relevant observations to the CSS or Sex Crimes detective.

C. Consideration of Psychological State

1. Responding officers will not ask the victim if he/she wants the assailant prosecuted. In the immediate aftermath of a sexual assault, a victim is not expected or encouraged to make decisions regarding the investigation or charges related to the offense.

2. The trauma experienced by a victim of sexual assault can inflict serious and lasting emotional and psychological harm on the victim and impair the victim’s ability to participate in the investigation. Officers and detectives play a significant role in the victim’s ability to cope with the emotional and psychological after-effects of the crime and willingness to participate in the investigation. It is imperative that officers responding to a sexual assault incident are able to recognize, understand, and manage these effects for the benefit of the victim and the criminal investigation.

3. The trauma may be so overwhelming that a victim cannot function well enough to assist in the investigation at certain stages of the case. Trauma affects memory and the ability to explain events in a narrative form. Trauma from crime complicates a victim’s participation in the investigation.

4. It is important in a sexual offense case that it is handled from a nonjudgmental perspective so as not to communicate in any way to a victim that the victim is to blame for the crime. Investigations should proceed without any presumption that the victim is untruthful. The investigator will not express cynicism or blame to the victim.
D. Sexual Assault Forensic Exam (SANE)

Officers should be aware of the process and benefit of a sexual assault forensic medical examination and should explain its importance to the victim. Officers, however, will not pressure victims to receive a forensic exam. Nor does participating in a forensic exam obligate the victim to pursue a criminal complaint.

E. Common Signs of Drug-Facilitated Sexual Assault (DFSA)

Officers should be aware that the signs of drug-facilitated sexual assault can include the following:

1. The victim reports symptoms of being under the influence of a drug during the sexual assault;

2. The victim experiences vaginal soreness or other signs of sexual activity in conjunction with an inability to remember a part of, or the entirety of, the incident;

3. The victim reports have become heavily intoxicated very rapidly;

4. The victim reports symptoms of amnesia, and

5. The victim exhibits symptoms of intoxication or other appearance of continuing to remain under the influence of drugs.

F. Preserving Evidence

1. The investigating officer will protect the integrity of evidence and request assistance or direction from a CSS or Sex Crimes detective regarding the collection or preservation of evidence. Officers should secure the crime scene to ensure that evidence is not lost, changed, or contaminated.

2. Discourage the victim from changing clothing, smoking, eating, drinking, showering, urinating, or defecating by explaining that those activities could destroy evidence.

3. If a drug-facilitated sexual assault is suspected, officers shall preserve drinks possibly used to facilitate the DFSA to allow for collection by CSS personnel for submission to a crime lab to test for the presence of drugs.

G. Case Assignments
The Sex Crimes sergeant or designee will assign all cases to detectives according to solvability factors, if the case meets the criteria of CSP or attempted CSP as outlined above. Cases not meeting these criteria will be forwarded to the appropriate area (Field Services, Impact Units, CACU, etc.). Cases not meeting the elements of a criminal offense will be sent back to the first responding unit.

H. Call-Out Criteria

1. The on-call Sex Crimes detective is contacted by the primary responding officer. After arrival on scene, the detective will determine whether the following criteria is present as a means of assessing the SCU’s continuing involvement and scope of investigation:

   a. In-custody case - where an offender was identified and taken into custody as the result of the allegation of CSP or an attempted CSP, and the officer established reasonable suspicion to detain, or probable cause to arrest, the subject.
   b. When the victim sustains a serious physical injury;
   c. Where the offender made unauthorized entry into a residence, vehicle or any other location where the victim has a clear expectation of privacy, or the right to deny entry by the offender has been clearly established, and the offender commits or attempts to commit CSP against the victim;
   d. Where the named offender has a prior sexual criminal history;
   e. Any high-profile case where the offender was identified;
   f. Serial rapists, where the suspect is known to have been responsible for more than one offense against more than one victim, even if solvability factors are not present, and/or
   g. Offender not in custody but as described in this policy where solvability factors exist and the offender used a deadly weapon.

2. The on-call detective may also provide assistance to other law enforcement agencies in their CSP investigations whenever directed to do so by the Sex Crimes Sergeant or the on-call Violent Crimes Supervisor, if the Sex Crimes Sergeant is not available.

3. Nothing in this section will preclude an officer who has conducted an initial investigation but is unsure any of the above criteria are present, from requesting permission from their immediate supervisor to speak to the on-call detective for guidance.
4. If a suspect is arrested and booked into a detention facility, and a Sex Crimes detective was not called out to the scene by a field supervisor/officer prior to the booking, the arresting officer will have case responsibility. However, Sex Crimes may provide assistance to the arresting officer if requested to do so.

I. On-Call Status:

1. Each detective is on an on-call rotation as either the primary or secondary on-call Sex Crimes detective.

2. The primary Sex Crimes detective is on-call for one week. The primary Sex Crimes detective will respond to call-outs that meet the call-out criteria as outlined within this SOP section.

3. The secondary Sex Crimes detective is on-call for one week. The secondary Sex Crimes detective is expected to respond to all full violent crimes call-outs. The secondary Sex Crimes detective will also be available to assist the primary Sex Crimes detective, if needed.

4. Should additional personnel be required, the call out detectives will contact the Sex Crimes Sergeant or the on-call Violent Crimes supervisor.

5. On-call detectives will make themselves available 24 hours a day. If the detective is unable to respond to a call-out, that detective will ensure a replacement is assigned and will notify Communications of the substitution immediately. The detective will also notify the Sex Crimes Sergeant of the change, or will notify the on-call Violent Crimes supervisor, if the Sex Crimes Sergeant is not available.

D. The Armed Robbery Unit will not conduct or assume control of an investigation or retain responsibility for cases under the following conditions:

1. If an offender is arrested and booked into a detention facility and an Armed Robbery detective was not called out to the scene by a Field Supervisor or officer before the offender was booked;

4. If a Field Supervisor approves an arrest of a robbery offender and wants the primary field officer to assume case responsibility for training purposes, the Field Supervisor will contact the on-call Armed Robbery detective to ensure the offender is not currently being investigated on other cases.

E. On-Call Status

1. Armed Robbery detectives are placed in an on-call rotation. Each detective is required to be on-call for one week at a time as the primary Armed Robbery detective and for one week at a time as the secondary Armed Robbery detective; this also includes responding to full Violent Crimes call outs. A detective can be moved up in rotation at the discretion of the Armed Robbery Sergeant, given case overload and/or emergencies. If moved up, the detective completes the remainder of the on-call rotation and will continue through the normal week of primary on-call status.
2. Armed Robbery detectives respond to call-outs when requested by a Field Services Sergeant or officer if the information provided meets the call-out criteria noted above. If contacted, the detective will notify the Armed Robbery Sergeant of any call-out during normal working hours, or if during off-duty hours, will notify the Sergeant during the next business day. If the call-out involves serious injury, is a high-profile case, or requires the Armed Robbery Sergeant’s presence, detectives will immediately contact the Armed Robbery Sergeant or the on-call Violent Crimes Supervisor, if the Armed Robbery Sergeant is not available.

3. Should the circumstances of a call-out require additional personnel, detectives will contact the Armed Robbery Sergeant or the on-call Violent Crimes Supervisor, if the Armed Robbery Sergeant is not available, for approval.
