Commander Zakary Cottrell has been with APD since 2004. He has been the Interim Deputy Superintendent since January 2022.
Introduction

The Albuquerque Police Department’s mission is to build relationships through community policing that will lead to reduced crime and increased safety.

This report reflects accurate and complete data as of June 30th, 2022. The Albuquerque Police Department (APD) uses dynamic, live databases wherein counts of recorded allegations, findings, and case dispositions are subject to revision as reporting standards and processes develop within APD’s Internal Affairs Professional Standards Division (IAPS). Due to the aforementioned nature of IAPS data, historical records presented may vary slightly from those reported in prior APD IAPS reports.

The purpose of this report is to provide the city’s administration, APD executive staff, the city council, police oversight board and the residents of Albuquerque with statistics and outcomes pertaining to IAPS Investigations.

Data Collection

Within this report, the second quarter reporting period is the period from April 1st, 2022 through June 30th, 2022.

All data were pulled from APD’s data warehouse by methodically retrieving all cases recorded with an Incident Type of “IA Investigation” or “Firearms Discharges” (specific to only cases involving discharges of a firearm at an animal) and filtered by the relevant reporting periods. Due to significant redundancies between the Incident Types “IA Investigation” and “Force Internal Investigation”, at the beginning of 2022, APD decided to document all misconduct investigations under the Incident Type of “IA Investigation”.

The date a case is received by IAPS is the date an investigation has begun. Cases presented as received by IAPS within the relevant reporting periods include data pertaining to the count of distinct employees facing one or more distinct allegations, their divisions, their demographic profiles, and their employee cohorts.

The date a case is completed by IAPS is the date an investigation has concluded. Cases presented as completed by IAPS within the relevant reporting periods include data pertaining to distinct employees, the distinct allegations and alleged policy violations within the case, the findings of investigations, and the actions taken as a result of said findings.
