Crime Prevention Tips

Auto Theft

Auto theft is a problem for all Americans, but the citizens of New Mexico face a particular issue that affects our auto theft rate.

“Due to the fact that we are adjacent to an International Border, we are always ranked high on the list for theft rates. Typically, vehicles are stolen for one of three reasons. They are used to joy ride, sell for parts, or driven across the border for resale. However, you can take a variety of steps to insure that you are not a victim of auto theft. Observe the following tips to reduce the chances of your vehicle from being stolen.”

- Lock your car and take your keys with you even when parked in your driveway.
- Do not hide a spare key on the vehicle
- Motion-sensor lights mounted over the garage will discourage thieves and alert you to the presence of unwanted "visitors" at night. Inside your home, these devices can even be wired to set off an audio alarm.
- Park in a well-lighted area, close to a corner with foot-traffic. To make your vehicle more easily visible, back into the parking space, and, if possible park at the end of the row and toward the light source
- Roll up the windows completely.
- Remove keys from ignition.
- Avoid leaving a vehicle parked unattended in a public parking lot for a long time.
- When parking in attended lots or parking garages, leave only the ignition key with the attendant. Older-model vehicle keys and other attached keys could be duplicated.
- Make sure the attendant or valet is actually the authorized attendant. Never have a tag with your name/address on the keyring.
- Always park with the wheels turned toward the curb and apply the emergency brake. This will prevent towing.
- Place valuables out of sight.
- If you have a garage, use it. Vehicles are least safe parked at the curb, more safe in the driveway and most safe in the garage.
- Lock your garage door.
- Do not leave your car running while it is unattended.
- Back your car into the driveway. If you drive forward into the driveway, a car thief could raise the hood to hot wire the car, and it would appear to the neighbors that you were just working on the car.
- Do not leave the car title in the vehicle. Doing so makes it easy for the thief to sell the car.
