Greetings Northwest, summer is in full swing and we are

all feeling the heat! We are still are down across the board in both violent and property crimes, not only as an Area Command, but as a City. The one exception would be in the category of Shoplifting. The Department recognizes this trend and has a plan in place to address the issue. For the next 45 days, three Proactive Response Teams will partner with the Organized Crime

Unit and focus on the retail areas in the Northeast and Northwest Area Commands. We are also focusing on median safety ordinances this summer in order to reduce the number for pedestrian involved accidents across the City. As always, I encourage everyone to participate in your neighborhood associations, business coalitions and well established entities like WSCONA and NWCPC. If you see any recurring crime or quality of life issues within the NW, please email me at dsaladin@cabq.gov and bring them to my attention.

NORTHWEST AREA COMMAND WATCH I LIEUTENANT JUAN CABRERA

Day shift received a tip that a felon was at a location. Upon contact he fled through back yards and discovered an open door in a back yard. He entered the residence. The female resident in fear fled her residence to police outside. The squad was able to re-establish a perimeter and contain the subject there. With the assistance of resources including drones, the subject was taken into custody without incident. Please keep your house secure, even when you are home.

Road rage continues to be an issue that leads up to violent crime. Please avoid road rage. There are horrible drivers, please don't lose your patience and escalate a situation.

Officers and I have stopped numerous times at locations and continuously get citizens approaching us stating "Thank You". We really appreciate that. You are a great motivator, THANK YOU SO MUCH.

NORTHWEST AREA COMMAND WATCH II LIEUTENANT Andrew Quillmann

Call volume for the Northwest is increasing along with the temperature. Your swing shift officers are working hard to take these calls in a timely manner. We have seen a slight increase in residential and commercial burglaries. To help deter burglary, please remember to keep your doors and windows secure. Your swing shift patrol officers and the Proactive Response Team are working hard to keep the area command safe. Officers are taking higher numbers of offenders off the street and through proactive contacts with individuals, they are identifying and arresting numerous individuals with outstanding warrants. As always, please keep in mind how important it is to report crime and suspicious activity when you see it. This helps us track where we need to apply our resources.

NORTHWEST AREA COMMAND WATCH III LT. Larry Middleton

Hello Northwest Area Command I hope everyone is finding ways to cool off this summer. Graveyard continues to actively patrol the parks and commercial businesses. We are starting to see success by finding less and less people in the parks after hours. We will continue this throughout the summer. Please reach out to me if you need anything from your graveyard officers.

The Proactive Response Team (PRT) are on special assignment working with the Organized Crime Unit focusing on the retail areas in the Northeast and Northwest Area Commands concerning retail crimes.

Tips for Runners and Walkers

Each year more and more people take up running and walking because it is a quick, inexpensive way to stay fit. If you travel often, running or walking is an excellent way to maintain your exercise regimen. Here are few pointers to help you keep safe when you hit the road.

Before you leave:

- Plan your outing. Always tell someone where you are going and when you will return. Tell friends and family of your favorite exercise routes. If possible, take a phone with you in case you need to call for help.
- Wear an identification tag or carry a driver's license. Include any medical information.

On the road:

- Wear reflective material.
- Stay alert at all times.
- Run or walk with a partner or a dog.
- Consider carrying a cellular phone.
- Vary your route.
- Avoid unpopulated areas, deserted streets, and overgrown trails. Especially avoid poorly lighted areas at night.
- Trust your intuition about a person or an area. React based on that intuition and avoid areas you feel unsure about.
 - Have your door key ready before you reach your vehicle or home.

CPC meeting, 3rd Wednesday of every month.

Council Goals

The goal of each Community Policing Council is to engage in candid, detailed and meaningful dialogue between Albuquerque Police and the citizens they serve. Councils are independent from the City and Department. They are encouraged to formally recommend changes to Albuquerque Police Department policies and procedures. They are also asked to make recommendations and identify concerns, problems, successes and opportunities within each area command and for the department as a whole.

Council Membership

The NWCPC meets in person at the Don Newton Multi Generational Center or alternatively, meetings can be attended via zoom. The CPC members are made up of eleven volunteers. CPC members are composed of members from the community and voting members. Voting members must reside within or have businesses within the boundaries of their area command. All attendees (members) are encouraged to submit recommendations, provide input concerning recommendations, ask questions and submit topics for discussion.

E-mail contact information for the CPC Board is; NorthwestCPC@cabq.gov.

City Councilors Name & E-mail contact information;

Dan Lewis - danlewis@cabq.gov. Louie Sanchez - lesanchez@cabq.gov.

Community Partnership and Outreach:

APD'S COAST Outreach (Crisis Outreach and Support Team):

The COAST team continues to work with the West Side Homeless shelter, service providers and Field Officers to ensure that the homeless and most vulnerable are being offered shelter and resources. Service providers are continuing to do homeless outreach throughout the City.

Coffee with a Cop: at various restaurant locations:

Coffee with a Cop is an opportunity to interact with the officers assigned to their neighborhoods and ask questions, voice concerns, and get to know the police officers in your community.

Cop on the Corner: at various neighborhood locations.

The Albuquerque Police Department launched a new program called "Cop on the Corner" to help build relationships with the communities where officers patrol. The program will give people the opportunity to attend police field briefings where they can interact with the officers assigned to their neighborhoods. The day shift officers and swing shift officers hold briefings at various neighborhoods.

Business Coalition meetings:

We have three community business locations. The Westside area businesses, Riverside area businesses and the Cottonwood area businesses. We are working with the businesses to identify and reduce criminal activity. In the meetings we will identify the business stake holders that will be involved, concerns on any type of criminal activity. We will talk about resources that can be used to deter and reduce criminal activity and provide crime prevention training, business security assessments and educate the businesses concerning property crimes.

Crime Prevention, Neighborhood Watch Program:

The NW Area Command has over 100 neighborhood watch programs and block captains. We have established an excellent rapport and understanding of the needs and concerns of the neighborhoods and block captains within their respected neighborhoods. The block captain/officer initiative program strengthens the ties between the officers, and the community.

ADAPT Program (Abandoned & Dilapidated Abatement Property Team):

The program identifies and addresses abandoned and /or dilapidated properties that become public nuisance because they have a pattern of calls for service, serious criminal activity or because they pose a public safety threat. The goal is to work with property owners to increase the health, safety, and welfare of the buildings and the community. Through community policing we will reduce crime and increase quality of life in the area.

COMMUNITY OUTREACH

APD'S COAST (Crisis Outreach and Support Team) is continuing to work with the West Side Homeless shelter, service providers and Field Officers to ensure that the homeless and most vulnerable are being offered shelter and resources. Along with this collaboration, we are stressing the importance of education for this population due to limited access or knowledge to some of the safety measures. Masks, hygiene, water and food are being provided on a daily basis to those that are not wanting to go to the shelters. Service providers are continuing to do homeless outreach throughout the City. The Westside Emergency Housing Center is continuing to remain open 24 hours, 7 days a week and will accommodate as many people as possible. The City opened up hotels to assist with shelter numbers, this is helping keep the most vulnerable and families safe and provide social distance. The staff at the shelter has been working hard to keep everyone safe.

Pet Microchip Registry Lookup

Web link Microchip Registry Lookup (aaha.org)

Microchip Registry Lookup

Step 1

Obtain the 9-, 10- or 15-digit microchip number. Veterinarians and rescue organizations can provide this information.

Step 2

Enter a 9-, 10- or 15-digit microchip number (no spaces or punctuation) to get a list of registries to contact to find pet owner information. Step 3

Starting with the first company (the most recent registry), call each company on the "Microchip enrolled with" list to see if that is the registry that has the pet owner information.

Top of Form

Microchip

Search

Bottom of Form

Tips:

This registry lookup tool does NOT provide pet owner information and is NOT for pet owners to update their pets' microchips. It is a lookup tool that helps you find the registry where your pet's microchip is listed.

Some microchips – especially those starting with the numbers 900 – cannot be tracked to a single provider. You will get a list of companies to contact to find the pet owner or for registration purposes.

Sometimes microchips are implanted but not registered to individual pets. In these cases, the registry lookup will return a list of companies that might have sold that microchip. Contact those companies and ask for the "trackback" information of who purchased that microchip. That organization may have the pet owner's contact information.

A "failed search" means that the registry could not be checked for the microchip you entered. This is out of AAHA's control, and you will
