The APD 911 Center has exceeded the standard every month since July of 2007, with an average of 95% from July to December. 92% of 242-COPS calls are answered within 10 seconds.

Strategic Support Division...

- Sergeant Buckner assisted the City of Santa Fe with setting up an ARAPA organization of their own. During their first meeting, they realized that many offenders were active in Albuquerque and Santa Fe.
- The Crisis and Outreach Psychiatrist continues to make a positive impact on mental health consumers as part of the COAST team:
- CM is a young woman who had contact with the police because her family was concerned about her erratic, potentially violent behavior; the family was desperate and scared, feeling that their daughter had never gotten the help she needed. COAST and Dr. Rosenbaum, accompanied by Officer Gene Petit, to her home and discussed the case with her mother, father, and sister. We set up a safety plan. During her next episode of erratic behavior, she was taken to the mental health center and admitted to the psych ward at UNM. While there, COAST and Dr. Rosenbaum worked with the inpatient team on a discharge plan. She was evaluated and accepted to the ACT team. She is currently doing well. Without the help of COAST, she likely would have been discharged from the MHC without any reliable follow up services and the family would have strengthened their belief that no one is helping them.
