

Albuquerque Police Department Monthly Use of Force Report

May 2026

Prepared by:

**Data Analytics Unit

Note: This report presents preliminary information from departmental data. All figures in this report are subject to change as additional information becomes available.

Total Use of Force Events - May 2026

This report provides a monthly overview of use of force events involving Albuquerque Police Department (APD) personnel. APD is committed to using force to achieve lawful objectives in instances where use of force is objectively reasonable, necessary, and minimal, given the totality of circumstances (see SOP 2-52: Use of Force – General). When force is not consistent with these standards of conduct (SOP 2-52: Use of Force- General), APD takes corrective actions which may include discipline.

APD's jurisdiction includes the City of Albuquerque which is divided into seven Area Commands.

Force was categorized into three levels based on APD policy. Starting in April 2026 force is no longer categorized into three levels. Instead it is categorized into two levels: Use of Force and Serious Use of Force. *For the purposes of this report, we have grouped Use of Force incidents with Level 2 Force and Serious Use of Force incidents with Level 3 Force.* For more information on APD's Standard Operating Procedures, see:

Total Use of Force Cases by Area Command and Level of Force

	UOF	SUOF	Total
Foothills	4	1	5
Northeast	4	0	4
Northwest	0	0	0
Southeast	4	1	5
Southwest	4	1	5
University	1	2	3
Valley	6	1	7
Out of Area	0	0	0
Grand Total	23	6	29

Level 1 Use of Force has been on a steady decline (see past reports). Under the new policy, which went live in mid April, much of what was Level 1 Force is classified as Low Level Control. Low Level Control will be reportable as part of the uniform incident report and reviewed by the officer's supervisor to ensure that it was reasonable, minimal and that a lawful objective was present. See page 5 for trends in Low Level Control.

Locations of Use of Force Cases

Note: Most force investigations in this report are open investigations since it reflects the previous month of data. As such, figures in this report are preliminary and subject to change as use of force investigations progress.

Use of Force Totals by Month - Past 12 Months

APD tracks use of force data over time to examine trends in use of force. For annual trends, see APD's Annual Use of Force Reports. This page reports monthly totals of all use of force for APD.

Final Call Types and Types of Force Used - May 2026

When officers are dispatched to calls for service, the dispatcher assigns an original call type, which the officer may update while they are on scene. Both the original and final call type of each call for service are tracked. The chart below shows the final call types for all calls involving force during the month.

Below, the total number of cases is shown that included the type of force. In any single force case, multiple officers may be involved and multiple types of force can be used. The bars on the graph will sum to a number greater than the total force cas..

Show of Force and Low Level Control Tactics - May 2026

Cases Where Shows of Force Are The Only Method Applied by Month

As of September 20, 2025, APD amended its use of force SOPs to specify that shows of force (i.e. pointing a firearm, ECW, or 40mm launcher) at a person are no longer uses of force according to APD policy. Shows of force are tracked as part of uniform incident reports and supervisors review the incidents to ensure each was reasonable, necessary, and minimal in the circumstances. Due to this subset of cases no longer being counted in force totals, cases where there is a show of force only are included below to for improved comparison of force cases over time.

Low-Level Control Tactics

Per APD SOP 2-53-3-DD, "a Low-Level Control Tactic is a physical technique used to move, guide, restrain an individual, or stop an individual's resistance, that results in temporary pain or superficial wounds. Superficial wounds include minor bleeding, scrapes, bruises, cuts, or abrasions." Under SOP, "a low-level control tactic is not a use of force". The use of low-level control tactics are reported as part of the uniform incident report, and so are reviewed by an officer's supervisor and generally not by IAFD.

As the new force policy, implemented in mid-April, does not have an equivalent for Level 1 force, much of what was Level 1 force is reported as low-level control tactics. Below, we report trends in low level control tactics for the past 12 months.

Use of Force Benchmarked Against Calls For Service and Arrests - May 2026

Officers are required to only use force when necessary to achieve a lawful objective. When officers have more contacts with individuals, it is likely that there will be more uses of force. To control for factors that may contribute to higher or lower uses of force in a given month, this page shows the number of uses of force relative to the number of calls for service and the number of arrests made. For a detailed discussion of the method used on this page, see APD's 2024 Annual Use of Force Report. **Total force counts on this page may be higher than the previous page if a case involves more than one use of force in different Area Commands.**

Calls for Service

Total Calls for Service for Area Commands

Excludes calls for service where contact with an individual was unlikely, see Annual Use of Force report for full methodology.

Demographics of Individuals Involved in Force - May 2026

APD records information about individuals involved in use of force incidents. Individual information is based on what the individual reported or, if not reported by the individual, on the investigators' observations on scene and through review of body-worn camera video. Information may change as investigations progress.

Note: Totals on different characteristics may differ due to missing values being excluded.

Race and Ethnicity

Force Rate per 100 Custodial Arrests, May 2026			
Race/Ethnicity	Total Force	Total Arrests	Force Rate per 100 Arrests
Hispanic	15	884	1.7
White Non-Hispanic	5	567	0.9
Black Non-Hispanic	4	148	2.7
Native American Non-Hispanic	4	210	1.9
Asian Pacific Islander Non-Hispanic	0	9	0.0
Unknown	2	109	1.8

Note: Table shows the number of people involved in force interactions. One person may be counted more than once if they are involved in multiple uses of force.

Completed Force Investigations - May 2026

APD has two processes for force investigations based on the level of force. Level 1 force is investigated by the Level 1 force investigation unit. The Level 1 unit is required to complete investigations within 24 days (if all extensions are requested and approved).

Level 2 and Level 3 force are investigated by the Internal Affairs Force Division (IAFD). IAFD also investigates any Level 1 force where a Lieutenant or above was involved or Level 1 force if another person at the same event had a higher level of force used. These investigations must be completed within 90-days. All force investigations are investigated to determine whether the actions of the officer(s) involved were consistent with department policy.

Level 1 Unit		IAFD	
Total Completed Investigations		Total Completed Investigations	
2		19	
Average Days to Completion		Average Days to Completion	
42		67	
Minimum Days to Completion	Maximum Days to Completion	Minimum Days to Completion	Maximum Days to Completion
24	60	39	83

All Force Cases

APD strives to only use force that is objectively reasonable, necessary to achieve lawful objectives, and proportional to the resistance from the individual involved, and minimal based on the totality of the circumstances. APD uses a preponderance of evidence standard to determine whether the force met policy requirements. After investigation, force is deemed in policy when every force technique is used correctly and was found to be reasonable, necessary, proportional, and minimal as defined in SOP 2-52: Use of Force - General. If any officer's force techniques used were determined to be out of policy, the entire force case or interaction is considered to be out of policy.
