Crime numbers are preliminary numbers based on calls for service and are pulled directly from the Computer Aided Dispatch system.

Public Safety ECHO

<https://www.cabq.gov/echo>

The Public Safety ECHO Project is the world's first-of-its-kind effort to use the ECHO model to address safety issues by bringing residents, workers, and businesses together in an online, social and professional space to share skills, increase knowledge, and solve problems. It's innovative because it taps into the community's wisdom to find safety solutions, applying the Project ECHO "All teach, all learn," multidisciplinary approach to finding best practices. [It is part of the city's strategy to tackle crime from all sides.](#)

THE ECHO MODEL OF PUBLIC SAFETY

Extension of Community Healthcare Outcomes, or Project ECHO, was created as a medical model to tele-mentor doctors across geographic distances. The goal of this model is to create better outcomes among patients by sharing best practices among doctors treating specific illnesses. This is the first time the ECHO model will be used as a way to increase public safety – as part of a true community policing initiative -- and will serve as a model for the rest of the world.

SCHEDULE

Downtown Public Safety ECHO - 2nd and 4th Thursday of each month 1-2:30 p.m. MST

Nob Hill - University Public Safety ECHO - 1st and 3rd Wednesday of each month 1-2:30 p.m. MST

SUBMIT A CASE

We welcome your suggestions regarding any scenario involving Downtown Albuquerque that you want to discuss at a future Downtown Public Safety ECHO session. If you do not feel comfortable presenting, a member of the Hub team is able to present to the network on your behalf.

If you are interested in presenting or have an idea for a future presentation, <https://www.cabq.gov/echo/downtown-echo-case-presentation-form>

Halloween Safety Tips

Washington, D.C. – Halloween can be one of the most fun nights of the year for children across America, but for parents, it can be the most nerve-wracking as well. On average, twice as many kids are killed while walking on Halloween than on any other day of the year. By taking just a few simple precautions, kids, parents and drivers can make the night fun and safe.

Tips for a Happy (and Safe) Halloween

Safe costumes:

- Decorate costumes and bags with reflective tape or stickers and, if possible, choose light colored clothing.
- Masks can obstruct a child's vision, so choose non-toxic face paint and make-up whenever possible.
- Have children carry glow sticks or flashlights so they can see better, as well as be seen by drivers.

Safe walking:

- Stay alert - Watch out for cars that are turning or backing up and don't dart out into the street or cross in between parked cars.
- Walk on sidewalks or paths. If there are no sidewalks, walk facing traffic as far to the left as possible.
- Put electronic devices down and keep heads up and walk, don't run, across the street.
- It's best to cross the street safely at corners. And always look left, right and left again when crossing and keep looking as you cross.

Safe driving:

- Slow down in residential neighborhoods. Remember that popular trick-or-treating hours are 5:30 to 9:30 p.m.
- Be especially alert and take extra time to look for kids at intersections, on medians and on curbs. Children are excited on Halloween and may move in unpredictable ways.
- Reduce any distractions inside your car, such as talking on the phone or eating, so you can concentrate on the road and your surroundings

Community Policing Councils

<https://www.cabq.gov/cpoa/community-policing-council>

Community Policing Councils are designed to foster better policing and community practices and community-police relationships. The six Community Policing Councils in Albuquerque coincide with the six Albuquerque Police area commands.

The goal of each Community Policing Council is to engage in candid, detailed and meaningful dialogue between Albuquerque Police and the citizens they serve. Councils are independent from the City and Department. They are encouraged to formally recommend changes to Albuquerque Police Department policies and procedures. They are also asked to make recommendations and identify concerns, problems, successes and opportunities within each area command and for the department as a whole.

Each of the six Community Policing Councils is composed of members from the community and voting members. Voting members must reside within or have businesses within the boundaries of their area command.

All attendees (members) are encouraged to submit recommendations, provide input concerning recommendations, ask questions and submit topics for discussion.

Needles/Sharps Containers/Drug Disposal

Please be advised large quantities of used needles and/or full sharps containers are not accepted at the Valley Substation. We have a small container located in the lobby. If you have more than a few needles the closest drop-off location to our substation is the North Valley Public Health Office located at 7704 2nd St NW. Call the substation nearest you to see if they accept needles/sharps. Pills are accepted at all substations (No liquids accepted).
