#### **Data Collection**

For the 2020 4<sup>th</sup> Quarter Report, data from the 4<sup>th</sup> quarter 2020 was pulled from the data warehouse. The data was filtered to include only cases with an Incident Type of "IA Investigation" with one exception being in the Internal Affairs Statistics table, the Firearm Discharge statistics where the Incident Type was "Firearm Discharge". The data included, but was not limited to file number, case number, received date, completion date, allegation, directive, finding, action taken, incident division (area command), incident section (assignment), officer payroll ID, name and rank.

To determine the number of cases received in the 4<sup>th</sup> quarter, the data was filtered to only include cases with a receive date within the quarter; received between 2020-10-01 and 2020-12-31. This data was also used to determine the incident division, allegation, directive (SOPs violated) and number of employees involved and their ranks.

To determine the number of cases completed in the 4<sup>th</sup> quarter, the data was filtered to only include cases with a completed date within the quarter; completed between 2020-10-01 and 2020-12-31. This data was also used to gather statistics on case findings and actions taken.

To determine the number of cases pending, the data was filtered according to both the received and the completed dates. Receive date was set before 2020-12-31, and the completed date was set after 2020-12-31. Pending data includes uncompleted cases from the previous quarter, and those received during the quarter, but not completed as of the end of the quarter.

Each quarter the data for the preceding quarter(s) is recalculated to ensure that the data is being reported as accurately as possible at the time each report is produced.
