COMMANDER RENE BARRAZA**

Commander's Corner

Greetings,

As school is coming to an end and the weather is warming up we are working very hard to make sure our community is a safer place to live, shop and enjoy recreation outdoors. Our goal here at the Southwest Area Command is to keep our children and our community safe this coming spring and summer.

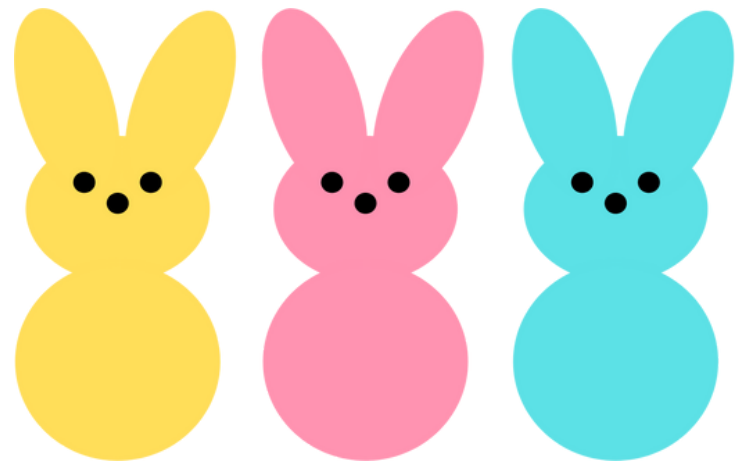

We are employing Problem Oriented Policing Strategies in order to combat gun violence and property crimes. I also want to welcome to our SW team newly promoted Sergeant Erik Herrera, and four newly trained police officers who have completed basic police cadet training, and On the Job Training: those officers are Officer Xavier Atencio, Officer Kyle Smith, Luis Camunez-Castillo, and Officer Andre Romero.

Southwest S.O.D. Tac-Plan

On April 4, 2023 our Southwest S.O.D. Tac-Plan was in full force. Making many arrests on central. Making the community feel safe with one arrest at a time.

CRIME PREVENTION TIPS

What To Do If My License Plate Was Stolen?

- Report License Plate Theft To The Police
- Get A Police Report
- Report The Stolen Plate To Your DMV Office

Why Would Someone Steal a License Plate?

Thieves steal license plates for three main reasons.

- A thief might want to conceal the identity of a stolen vehicle—and use your license plate to do it.
- A thief may want to use his vehicle to commit other crimes such as robbery, narcotics activities, other thefts or even planned crimes against persons, If the plate number is reported by witnesses, it will not come back to the criminals vehicle.
- Some people steal license plates so they can avoid traffic, red lights, and speeding fines. Cameras will capture your stolen plate number, and you will get the ticket instead of the perpetrator.

Secure License Plates

Now that you've finally gotten your new license plates, it's time to think about how to keep them secure.

- Get a lockable and decorative license plate frame. This will protect your plate from getting scratched or dented, and it will also deter thieves.
- Use Plate Keeper special screws with a custom removal tool. These screws are designed to be tamper-resistant, so they'll make it more difficult for thieves to steal your plate.
- Install anti-theft self-tapping screws. These screws require a special tool to remove, so they'll deter thieves who don't have the right equipment.
