\*Action Plan topics and organization will vary based on data and community input. These 4 concepts were developed by the Vision Zero Task Force to help describe Vision Zero efforts for early outreach.

### Completing the Action Plan:

- Draft the Plan
- Additional data collection + analysis
- Public engagement to help define the problem, set goals, and develop action steps
- Peer exchange with other Vision Zero cities
- Implementation and testing

## ACTION PLAN THEMES

- **Engineering + Roadway Design:** Prioritize the safety of all road users and use complete streets design principles when designing, building, and reconstructing roadways.
- **Safe Speeds:** Implement speed management.
- **Policy, Regulation + Practice:** Establish and advocate for proactive and equitable policies, regulations, and practices that center safety and for all roadway users.
- **Data + Transparency:** Use data to make decisions, prioritize funding, and evaluate traffic safety projects to ensure that Vision Zero initiatives, and the data behind them, are equitable and transparent.
- **Education + Encouragement:** Promote a culture of safety and care among all road users.
- **Walking + Rolling:** Increase opportunities for people throughout the city to safely walk, bike, and use mobility devices.
