Heat and Your Health

Symptoms of Heat Stroke
Body temperature of 103+, nausea, dizziness, and a fast, strong pulse

Symptoms of Heat Exhaustion
Heavy sweating, muscle cramps, clammy skin, and a fast, weak pulse

Emergency Room Visits
Each year there are 67,512 ER visits due to heat on average

Summer Fun

Dive into Summer
Beat the Heat by taking a swim at one of Albuquerque’s 7 public pools, or enjoy the fun at city owned splash pads.

Take a Hike, Do It Right
Get outdoors and enjoy any of the trails here in Albuquerque. Hike early before it heats up, and remember to bring plenty of water.

Plant a Tree This Summer
Help the City create more shade, pledge to plant a tree today and help reach our 100,000 tree goal!

Visit the BioPark
Spend a couple hours at the BioPark Aquarium. Learn about marine life while staying cool.

Find a Cooling Center
Find water, sunscreen, and air-conditioned relief from rising temperatures this summer at the following locations around Albuquerque, or visit one of our splash pads:

Safety Tips

Is Your Home Ready?
Schedule a Free Home Energy Audit

Shield Yourself
Make sure to wear protective, light-colored clothing, sunscreen, and hats.

Heat Resources
- Life Threatening Emergencies: 911
- Non-Emergency Police Line: 505-242-2672
- Office of Emergency Management: 505-768-2000
- Report a Power Outage (PNM): Text #OUT to 78766

Heat Protection
Never leave pets or children in parked cars, temperatures in a parks car can reach 131 – 172 degrees within minutes.
