‘Items with no content changes’ and ‘Items with ISD or DTI director changes’, including ‘Mobile Device Policy’ (below) will remove the language “To Be Reviewed” [insert date], such that these items will now be reviewed on an as needed basis.

The suggested revisions in the second category have only to do with regard to the [new] Department name and Director’s title.

**The listed Policies were reviewed by the Committee. John Keck made a motion to replace the language “an individual employee” with “any individual” in the *Sensitive Data Policy: Section IV: Definition of Sensitive Data, Part i: Personally Identifiable Information*. All members voted in favor of the proposed change, in favor of removing the language “To Be Reviewed”, and in favor of the new Department name and Director’s title revisions.**

- **New: Review of Mobile Device Policy and supporting Procedure**

This Policy Applies to all city employees regarding mobile device approval criteria, monitoring responsibilities and appropriate use of a city supplied mobile device or a city subsidized mobile phone. The attached policy requires TRC review and approval.

**An overview of the Mobile Device Policy was presented by Gerald Romero, City Budget Officer. There were some questions posed by Committee members, with responses from Mr. Romero and Mr. Chapman. John Keck requested that this Policy be reviewed for its relationship to the Mobile Device Security Policy. Call to question/ motion to approve Policy by Peter Ambs. Motion carried unanimously.**
