Review TRC Request	All	5	• <u>NextRequest IPRA Software (Mark T. Leech)</u> , \$17,008.00. As part of ongoing process improvement efforts, the City Clerk wishes to implement NextRequest as a web-based public-facing hub for requests made by the public under the Inspection of Public Records Act (IPRA). NextRequest is a hosted solution originally developed as part of a Code for America Fellowship for the City of Oakland and

		 now also in use at Port of Seattle, City of West Sacramento and the Port of Tacoma. It is anticipated that this web based solution will: * Reduce the number of IPRA requests made in the first place * Provide tracking of request status (by both public and internal users) * Reduce the cost per IPRA request by providing more opportunities for process improvement * Leverage the existing city open data infrastructure Webinar training included in cost Maintenance/subscription \$17,008 per year Motion to commence discussion by Darryn Phillips; second by Noah Parraz. Mark Leech discussed the purchase request item, including background and its usage in other cities. Vendor was procured through the City's e-procurement (Quick Quotes RFQ) method.
