

- Candidates will receive access to the electronic petition and qualifying contribution pages on the first day of their qualifying and petition period.
- Candidates will receive a welcome email that will ask the candidate to create a password for the site.
- The act of creating a password and signing in for the site is what activates a candidate as “live” on the site, and how a candidate is able to begin collecting petition signatures and/or qualifying contributions.

- Unique links can be used by candidates for their email blasts or social media.
- These links will route voters directly to a candidates petition or qualifying contribution page as opposed to the main page where voters can pick from all available candidates.
- When using these links, please communicate to voters that they will only be able to sign or donate if they are a registered voter in the district of the candidate.

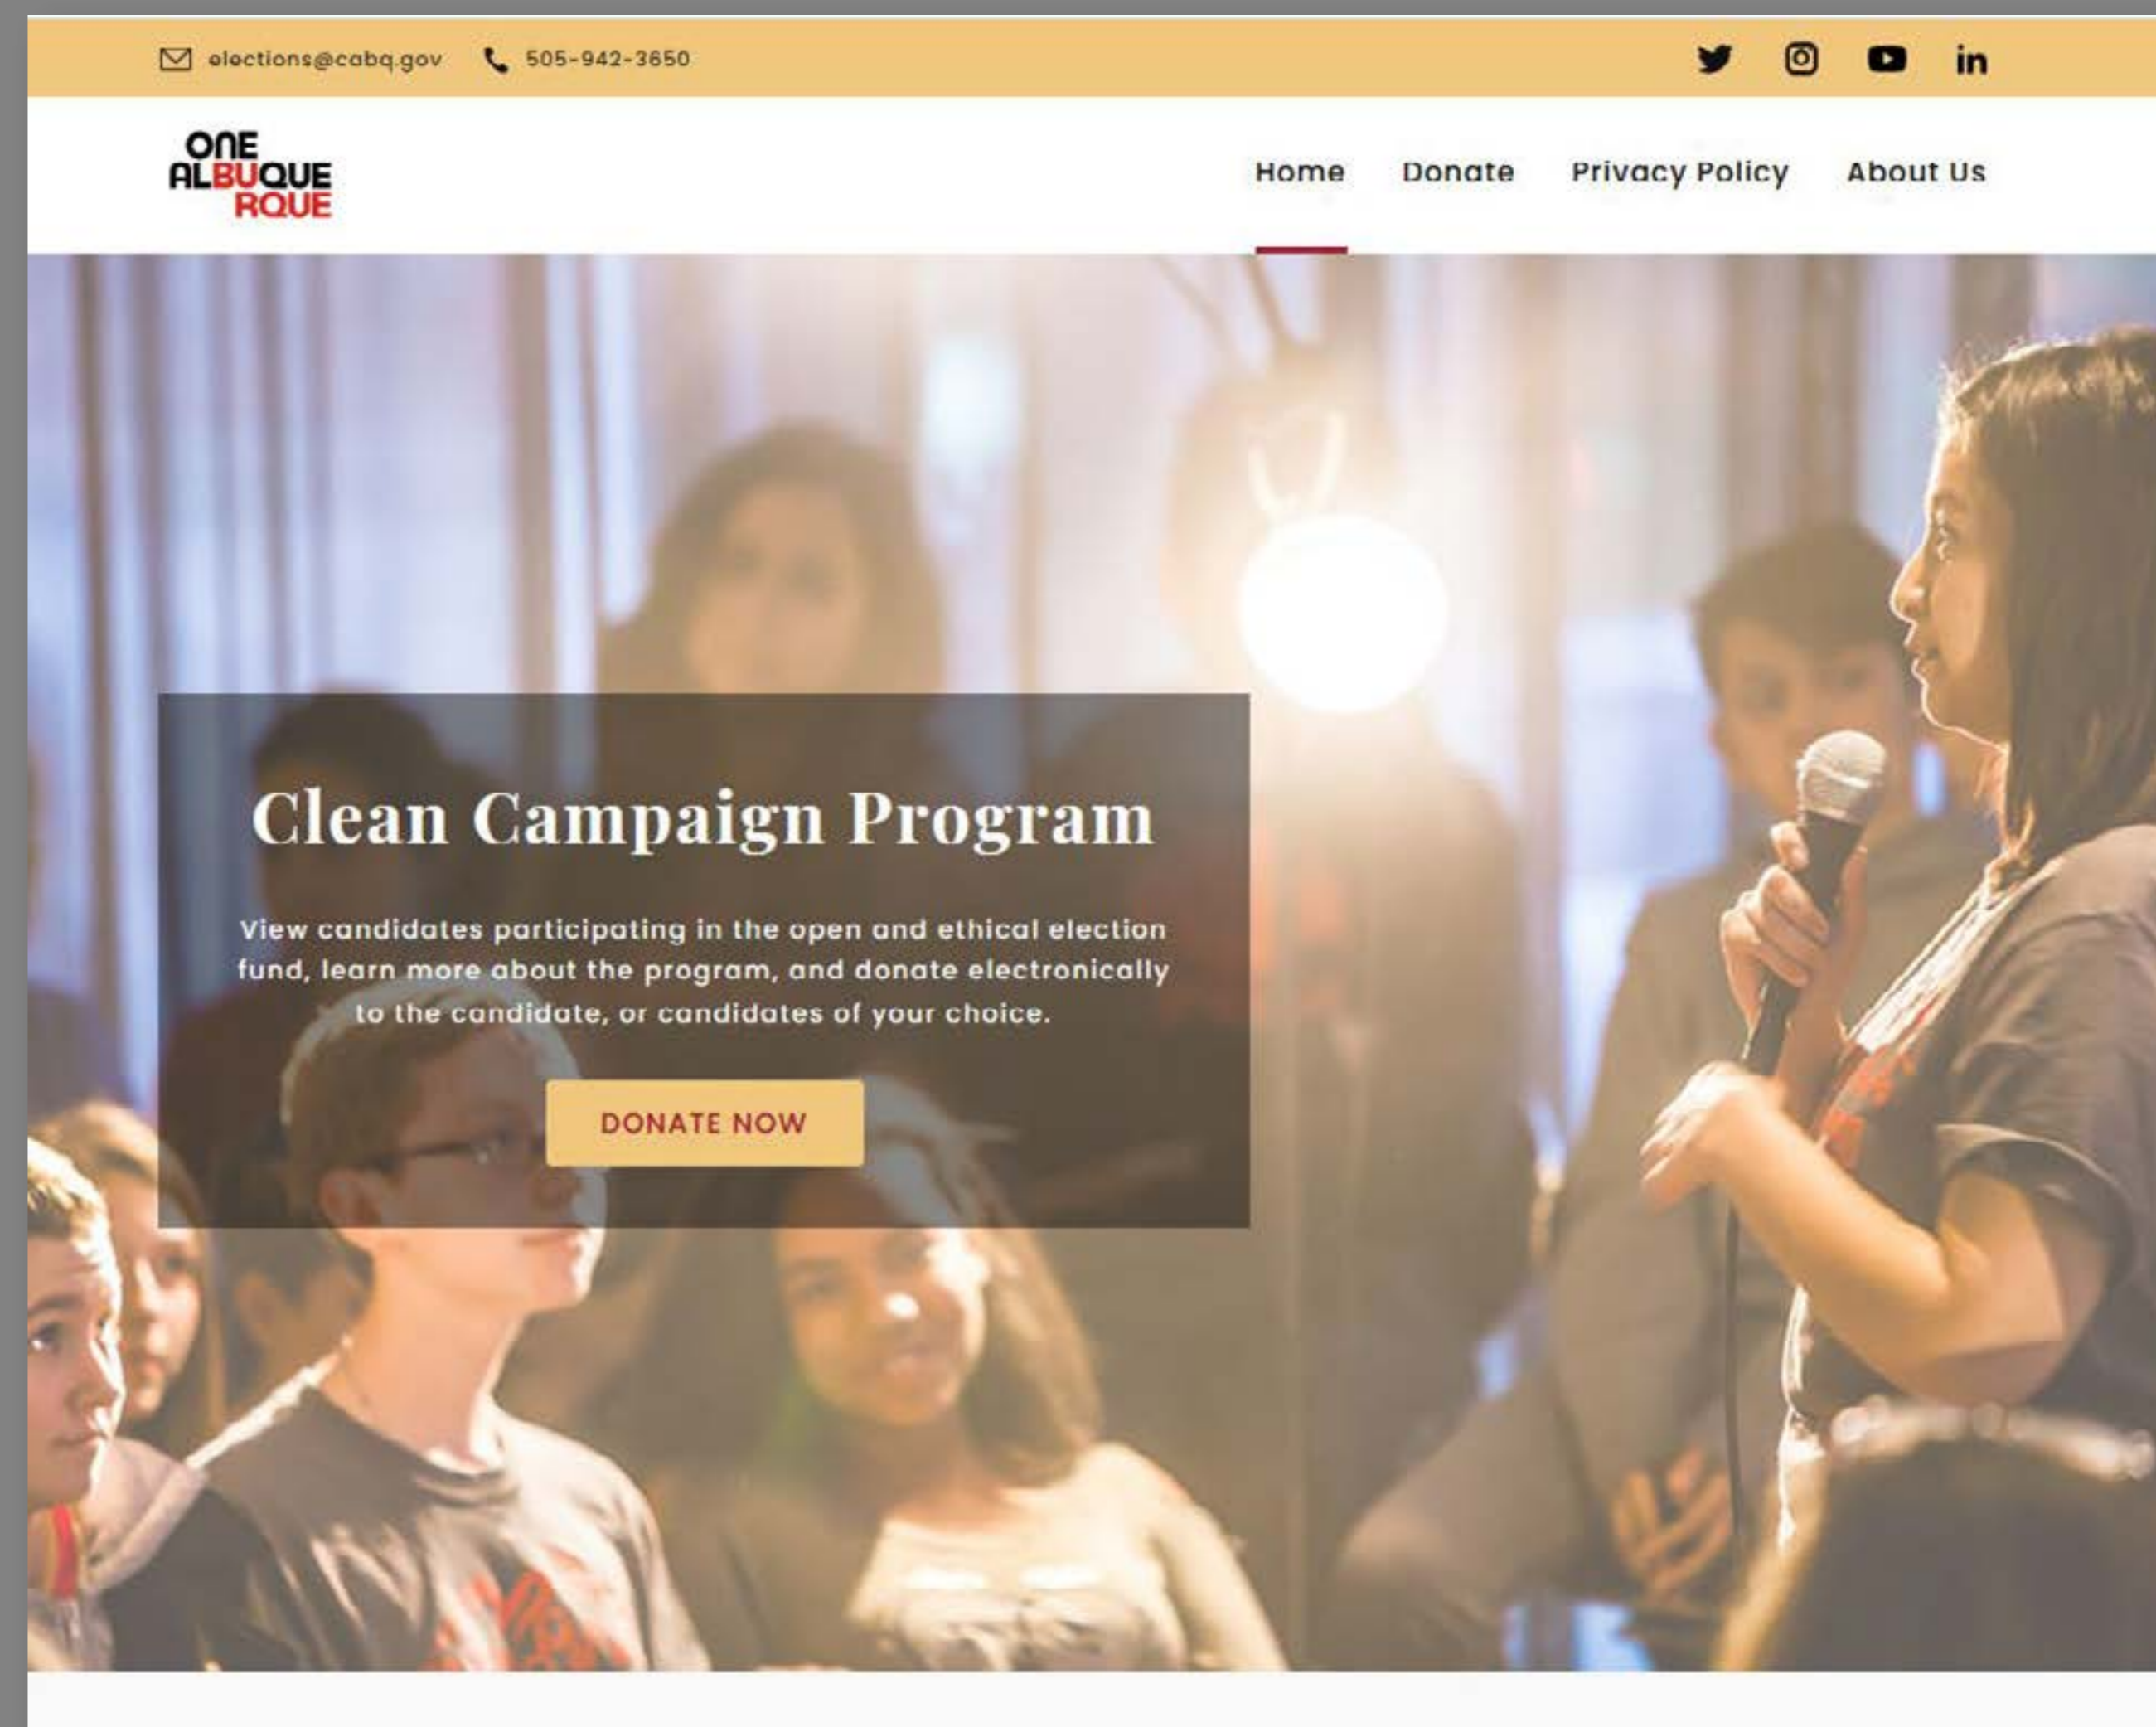

- Once a voter has donated or signed for a candidate, they will not be able to donate or sign for that candidate again, even when using a unique link.

- This website is an additional tool for collecting petition signatures and qualifying contributions.

- Your campaign will still have access to paper petition forms and qualifying contribution receipt books.

- The City Clerk's Office encourages campaigns to use all the tools available to them.
