Artist Photo Book

Artist Statement

I got a friend to pose for me in the park and I shot with a film camera. I developed my images in the darkroom and created my book from scratch, with some cardboard and fabric. I incorporated my drawing skills and added some 3D aspects to my photo book. I intended for this book to not have a "beginning" nor "end"; everything is a loop, which represented my state of mind at that time, never-ending thoughts.
